

DECO STAIN

Deco Stain is a solvent based stain. It's high demand and acceptance in the market is due to it's ability to stain concrete and overlays without relying on the presence of minerals in the concrete to do so. This means your results will be more brilliant, predictable and consistent than ever before.

Deco Stain easily transforms an ordinary concrete slab into a luxurious and elegant floor. Deco Stain is translucent, meaning the concrete underneath will still show through the color making beautiful multi-tonal effects throughout the floor.

Deco Stain is easy to apply, it does not need to be scrubbed in, nor does it need to be rinsed off, like acid stains. This attribute makes it a favorite for contractors who now can apply the stain and seal the stain within a few hours, where as before it took multiple washes to neutralize the acid in Acid Stain and numerous trips to the same location to finish the floor. Deco Stain is UV stable so it has exceptional and versatile performance for interior and exterior applications.

Deco Stain is also the perfect product for producing highlights in stamped concrete and stamped overlays. Once the highlights are in place, sealing of the stamped concrete can proceed. Messy and costly washing off techniques required for powder releases and acid stains are now avoided. Deco Stain is an overall exceptional product that will generally outperform and outlasts all other forms of stain.

BENEFITS

- VOC COMPLIANT – 400 grams/litre
- UV Stable
- Interior and Exterior Application
- Consistent Finish and Predictable Results
- Vibrant Stain Colors
- Easy to Apply
- No Rinsing or Scrubbing Required
- Complete Projects Quickly
- Versatile and Unique Floor Finishes
- Excellent Coverage
- Can be applied over acid stains to brighten the color and make the color consistent

COLOR

11 Vibrant Colors (refer to color chart)
Can create your own designer colors through dilution or blending

USES

Use on all Power Trowelled, Broom Finishes, Stamped Concrete and Overlays
Warehouse Floors ~ Showroom Floors ~ Hotels
Garage Floors ~ Driveways ~ Laundry Rooms
Kitchens ~ Basements

NOTE: Do Not use on polished concrete

CAUTIONS

Wear a Charcoal Respirator for interior applications
Use in well ventilated areas
Avoid prolonged breathing of vapor or repeated skin contact
Contains petroleum distillate – Keep away from open flame

COVERAGE

Coverage 400-600 square feet per gallon at full concentration

APPLICATION PROCEDURE

1. SHAKE CONTAINER WELL BEFORE USING.
2. Clean concrete thoroughly. Remove all foreign matter, grease, oil, curing membrane etc.
3. Let floor dry thoroughly after washing
4. Tape off all walls to protect from overspray.
5. Spray Deco Stain for best results.
6. Always do a test spot to see how the stain will affect the concrete.
7. Only 1 coat is needed, multiple coats or various color combinations can be done if desired.
8. Let stain dry 3 hours at ambient temperature.
9. To set the stain, Deco Stain requires that two light coats of Premium Acrylic be sprayed on. Do Not roll.
10. For full protection, apply 2 additional coats of Premium Acrylic.
11. For Highlighting Effects on Stamped Concrete, pre-seal the concrete or overlay with Premium Acrylic Ready to Use before spraying on Deco Stain.

CLEAN-UP

Clean up with paint thinner or xylene.

WARRANTY

We warrant our products to be of good quality and will replace any products proved defective. Satisfactory results depend not only upon quality products, but also upon many factors beyond our control. The user shall determine the suitability of the product for the intended use and assume all risks and liability in connection therewith. Therefore, except for such replacement of product, Cornerstone Coatings makes no warranty or guarantee express or implied including warranties of fitness for a particular purpose or merchantability, respecting its products, and Cornerstone Coatings shall have no other liability with respect thereto.
